FUNDICIONES DE ODENA SA

CRTA N-II KM 555,2 ES 08711 ODENA Espagne

The society **FUNDICIONES DE ODENA SA** is authorized to use the NF mark, in application of the general rules of the NF mark and the specific rules NF- VOIRIE, on the gully tops and manhole tops indicated on the following pages.

This certificate attests that the indicated products have been assessed and are in compliance with the requirements of the standards below.

This decision has been taken after consulting the specific Committee of the NF-VOIRIE mark, taking into account the results of the internal controls of the company which have been confirmed by the tests carried out during the visits by the inspection body.

This certificate cancels and replaces all the previous certificates.

This right to use the NF mark is granted until the 31/01/2019, subject to the controls made by AFNOR Certification which can penalize the holder of the right to use the NF mark according to the general rules of the NF mark and to the specific rules NF VOIRIE.

Certified characteristics

Class
Vent area
Clear opening
Depth of insertion
Securing of cover / grating within frame
Frame bearing pressure
Frame depth
Opening angle
Water way area
Test loads and permanence set
Material
ISO 9001 quality system
Marking

SignatureFournisseur

Franck LEBEUGLE
Managing Director of AFNOR Certification

CERTI F 1332.4 11/2014

Class	Reference	Designation of products	Standard	NF Identification
B125	LLUM-3188	Square frame, square cover	NF EN 124-1:2015 + NF EN 124-2:2015	91-3188-3188
B125	LLUM-3195	Rectangular frame, rectangular cover		91-3195-3195
